TRAKMAT®

GROUND PROTECTION MAT

PRODUCT INFORMATION BROCHURE

The Checkers™TrakMat® is a ground protection mat. They are designed to allow large vehicles to easily traverse lawns, sidewalks, driveways and more without causing damage. They also prevent vehicles from getting stuck in muddy, wet, and unstable ground conditions. Made from the highest-quality polymers, TrakMat® will not rot or break. TrakMats® are manufactured from polyethylene, giving the mat a much longer life span than wood alternatives. The polyethylene construction also allows the mat to contour to the ground, preventing rutting or damage to turf. The lightweight composite material also allows for faster setup times, as a mat can be easily deployed by two people.

- **Protect lawns and other surfaces from vehicles or heavy equipment**
- **No lost time because of stuck vehicles or equipment**
- **Stop replacing slippery, heavy, wet, rotten, broken plywood**
- **Lighter weight, with hand cutouts for easy lifting**
- **UV protection prevents material degradation**
- **Connector Holes standard on all four corners**
- **Two or four-way tough urethane connectors available**
- **U-Stakes available to prevent mats from sliding on inclines**
- **Withstands up to 90-ton vehicles**
- **Unaffected by heat or cold**
- **Bend, but won't break**
- **Chemical and oil resistant**
- **Max tire-to-mat contact with unique power cylinder traction design**
- **Six-year limited warranty**

PRODUCT OVERVIEW

The TrakMat® is a ground protection mat with a load capacity of 120 tons. It features a durable, nubbed tread pattern and a rugged polyethylene construction. It is designed to create temporary road ways, walk ways and work sites.

Material: Polyethylene

- 44.5" x 96" x .5"
- Usable surface area of 29.7 sq. ft.
- Weight 78 lbs.
- Nubbed tread
- Black and cool green colors available

MODEL: TM4496-W

APPLICATIONS

- Civil Engineering
- Construction
- Military Sites
- Landscaping
- Infrastructure and Utilities Maintenance
- Transmission
- Oil and Gas

SPECIFICATIONS

TWO-WAY CONNECTOR

MODEL: HDU 2-WAY

These connectors can link two TrakMats® to create a temporary roadway.

FOUR-WAY CONNECTOR

MODEL: HDU 4-WAY

These connectors can link up to four TrakMats® to create a temporary work site.

U-STAKE

MODEL: U STAKES

These connectors are designed to hold the TrakMats® in place on sloped terrain.
