OUTRIGGER PADS

Outrigger pads provide a large, strong footprint to stabilize heavy equipment. Constructed of engineered composite material, Checkers outrigger pads set the standard for quality, heavy duty support.

OUTRIGGER PADS

Model # PAD2424

- No splinters, warping, or delamination
- Lightweight & heavy duty
- Recovery memory after bending
- Engineered to bend but not break
- Multiple sizes available

GROUND STABILIZATION

The GeoGrid® is a unique product designed for temporary ground stabilization. It is a great product for creating temporary parking areas and roadways.

GEOGRID

Model # GEO-2.4

- Ground reinforcement and stabilization system ideal for pathways and driveways
- Unique design avoiding surface deformation in high temperatures
- Fast and simple to install with simple interlocking design
- Available in two sizes
