EASY RIDER® RUBBER SPEED BUMP
PRODUCT INFORMATION BROCHURE
Checkers™ is a full-service manufacturer of parking lot safety solutions. We design and manufacture traffic control products that help cars navigate and park safely. Our main goal has been to create solutions that protect motorists and pedestrians from the perils of today’s parking lots. As such, Checkers™ products have been designed and developed with speed reduction, driver and pedestrian safety in mind. All our solutions are manufactured from 100% recycled rubber and plastic. Our speed bumps or parking blocks, for example, are longer lasting, highly visible, and more car-friendly than asphalt or concrete alternatives. Not only are Checkers™ traffic safety solutions environmentally friendly, they can also be installed for either temporary or permanent use.

- **Rubber speed bumps greatly outlast concrete or asphalt competitors**
- **Rubber speed bumps don’t degrade like concrete speed bumps, keeping parking lots aesthetically pleasing**
- **Channeled bottom for cabling and piping**
- **High-quality rubber is resistant to weather, salts, and chemicals**
- **Recycled rubber construction is environmentally friendly**
- **Pliable rubber protects vehicles as well as curbs**
- **Highly-reflective colored tape ensures the speed bump will be visible**
- **Easy-to-install, either on asphalt or concrete surfaces**
- **Can be used for temporary or permanent applications**
- **Great for commercial and residential applications**
- **End caps available and sold separately**
**Easy Rider® Speed Bump** reduces vehicle speeds to 2-5 mph (approximate), making parking lots or light traffic streets safer for pedestrians and motorists. Constructed from 100% recycled tires, Easy Rider® speed bumps are preformed to ensure a smooth, safe ride. The Easy Rider’s flexible design conforms to the contour of virtually any road surface. End caps can also be purchased to protect the speed bump ends as well as vehicles. In-molded reflective tape and cat’s eye reflectors enhance the speed bumps visibility at night warning drivers and pedestrians well in advance.

**Material:** Premium recycled rubber
- Long lasting and cost efficient
- Reduces speed to 2-5 mph
- Highly visible at night
- Simple installation
- Product can be installed in sections to create varying lengths
- Will not warp, crack, chip or rot
- Can be installed on any road surface
- Resistant to ultraviolet light, moisture, oil, and extreme temperatures
- Temporary or permanent installation
- Channeled bottom for cabling and piping
- Lowers insurance premiums for lot owners
- Maintenance free
- Warranty: 3 years on the product; 1 year on the tape (under normal use)

**WARNING:** This product can expose you to chemicals including Arsenic, Cobalt, Cadmium, Lead, Chromium, Nickel Compounds, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
